JOURNAL OF FORECASTING

Issue No. 1, January–February

Discretionary Databases in Forecasting: *T. Connolly and A. L. Porter* 1

Comparing *Ex-ante* Forecasts from a SEM and VAR Model: an Application to the Italian Economy: *G. Boero* 13

A Comparison of Tests for SETAR-type Non-linearity in Time Series: *J. D. Petruccelli* 25

Improved Business Planning Through an Awareness of Political Cycles: *P. Young, A. A. Marcus, R. S. Koot and B. Mevorach* 37

Allocating the Weights in the Linear Opinion Pool: *C. Genest and K. J. McConway* 53

Quality/Value Relationships for Imperfect Weather Forecasts in a Prototype Multistage Decision-Making Model: *R. W. Katz and A. H. Murphy* 75

Issue No. 2, March–April

Special Issue on State-Space Forecasting and Seasonal Adjustment

Editor: Peter Young

Preface: *P. C. Young* 87

Estimation Procedures for Structural Time Series Models: *A. C. Harvey and S. Peters* 89

Seasonal Adjustment and Kalman Filtering: Extension to Periodic Variances: *P. Burridge and K. F. Wallis* 109

Efficient Bayesian Learning in Non-linear Dynamic Models: *A. Pole and M. West* 119

Indexed or abstracted by 'Butterworth Sci. Limited—FUTURES', 'COREJ', 'Cambridge Sci. Abstracts', 'Current Contents', 'Current Index to Statistics', 'Executive Sciences Inst. Inc.', 'Management Contents Inc.', 'Materials Information', 'Public Affairs Info Service', 'Sociological Abstracts Inc.', 'Statistical Theory & Method Abstracts', 'VINITI-USSR Acad. of Sciences'.

Non-linear State Space Models with Partially Specified Distributions on States: *J. Q. Smith* 137

Robust Estimation of Level and Trend: *M. Ferelli and G. Tunnicliffe Wilson* 151

Recursive Estimation and Forecasting of Non-stationary Time Series: *C. N. Ng and P. C. Young* 173

Announcement 205

Issue No. 3, May–June

Forecasting with Balanced State Space Representations of Multivariate Distributed Lag Models: *S. Mittnik* 207

Transformations and Dynamic Linear Models *P. J. Lenk and C.-L. Tsai* 219

Disaggregation Methods to Expedite Product Line Forecasting: *C. W. Gross and J. E. Sohl* 233

A Test of Space-Time ARMA Modelling and Forecasting of Hotel Data: *P. E. Pfeifer and S. E. Bodily* 255

Predicting Small Region Sectoral Responses to Changes in Aggregate Economic Activity: A Time Series Approach: *B. R. Weller* 273

Optimal Selection of Forecasts: *L. Chen and G. Anandalingam* 283

Acknowledgement to Referees 299

Announcement — Special Issue 301

Issue No. 4, July–September

Special Issue on Judgemental Forecasting

Editors: L. D. Phillips and L. R. Beach

Preface: *L. D. Phillips and L. R. Beach* 303

Decomposition: A Strategy for Judgemental Forecasting: *R. H. Edmundson* . 305

The Role of Judgement in Macroeconomic Forecasting: *D. S. Turner* 315

Judgmental Extrapolation and the Salience of Change: *P. B. Andreassen and S. J. Kraus* 347

Effects of Difficulty on Judgemental Probability Forecasting of Control Response Efficacy: *N. Harvey* 373

Judgmental Adjustment of Earnings Forecasts: *C. Wolfe and B. Flores* 389

Judgemental Revision of Sales Forecasts: Effectiveness of Forecast Selection: *B. P. Mathews and A. Diamantopoulous* 407

Announcement—Special Issue: 'Structuring Knowledge and Aiding Judgment in Forecasting' 417

Issue No. 5, October–December

Forecasting Time Series with Increasing Seasonal Variation: *B. L. Bowerman, A. B. Koehler and D. J. Pack* 419

Some Comparisons of the Relative Power of Simple Tests for Structural Change in Regression Models: *M. Bleaney* 437

Exponential Smoothing: Estimation by Maximum Likelihood: *L. Broze and G. Mélard* 445

Recovering Precision From Seemingly Redundant Rounded Data: *I. L. Collier, Jr. and B. H. Baltagi* 457

Note: NYSE Volume: an Application of Outlier Analysis: *J. B. Guerard, Jr.* . . . 467
